Woven Geotextile Cross Reference Chart

GEOTEXTILES

INDUSTRY COMPARISONS

The following chart is an overview of general functional equivalents in the woven geotextile marketplace for stabilization, filtration, and reinforcement applications. Talon Fabrics by Western Green are designed to provide functional performance, overall site cost reductions, and consistent quality. For full product specifications, installation, and more visit www.westerngreen.com

	Woven Geotextiles								
	 STABILIZATION					 FILTRATION			 REINFORCEMENT
	Stabilization					Filtration			Reinforcement
Talon Fabrics <i>by Western Green</i>	TF200S	TF315S	TF320W	TF370W	TF570W	TF402F	TF404F	TF700F	TF1084R
Tencate/Mirifi	500X	600X	HP270	HP370	HP570	FW402	FW404	FW700	RS380i
Propex	200ST	315ST	2X2 HF	3X3 HF	4X4 HF	111F	102F	104F	
SKAPS	W200	W315	M220	M330	M440	M404		M706	
Thrace LINQ			GTF320	GTF370	GTF570	GTF400EO	GTF400	GTF400E	
Hanes TerraTex	GS200	HD	HPG27	HPG37	HPG57	EP20	HPG16	EP	
Carthage Mills	FX-55	FX-66	FX-270MF	FX-370MF	FX-570MF

ADS Geosynthetics	200W	315W	270HP	370HP	570HP	111F	02X2HF	104F	400HSTS
ACF Environmental	S200	S300	270HP	370HP	AC570/ HSP4	M404		M100	
Contech	C200	C300			C400	C70/11		C70/06	

* This chart is to be used for reference only as it reflects what might be considered 'functional equivalents' based solely on physical properties and structure. Comparisons were developed based on publicly available information. Western Green and its affiliates make no warranty or guarantee regarding the completeness or accuracy of the comparisons shown. All equivalents should be determined by the design engineer.
